Line Card

Specializing in high efficiency and renewable energy technology

Delivering unparalleled service:

- **Product selection.** Let our experience work for you.
- **Sales.** We're often available evenings and weekends for on-the-spot consultations.
- **Service.** Service technicians on call 24/7.
- **Delivery.** Utilize our fleet of delivery trucks or the most cost effective freight service.
- **Training.** Join thousands who have already experienced our top-notch training programs.
- **Incentive assistance.** From evaluation to completing paperwork—State & Federal programs

Divisions of Hot Water Products, Inc.. Log on for details.

Ultra high efficient heating has never been easier

Elite

The Elite Heating Boiler™

- 6 ASME Models with a maximum input ranging from 80,000 btu to 399,000 btu
- Increased turndown at 6 to 1. Vents up to 200'.
- AFUE up to 95%
- Best in Class Residential/ Commercial - Low mass boiler

ModCon

*Commercial Stackable
Condensing Boiler*

- 3 Models ranging from 300,000 to 850,000 btu
- 94% efficient
- Commercial floor mount low mass
- Modulating Burner 5 to 1 turn down

Pioneer

*High Efficiency/High
Mass Space Heating*

- 4 Models ranging from 100,000 to 199,000 btu
- 95% Efficiency, 3:1 turn down
- No primary secondary required
- Built-in buffer tank
- Micro zones no problem

MC-Contender

Wall-hung Heater

- 4 Models ranging from 50,000 to 120,000 btu
- Up to .94EF, / 93%, AFUE
- Residential wall mount
- Most affordable of its kind available today

Versa-Hydro & Versa-Hydro Solar

*Combination DHW/
Space Heat*

- 6 Models ranging from 130,000 to 199,000 btu
- SST DHW heater with integral space heating module
- 96% Efficiency, 3:1 turn down
- Available in solar version

Phoenix & Phoenix Solar

Gas Fired Water Heater

- 9 Models available including 4 Solar
- 96% efficient
- Commercial and residential
- The only modulating water heater on the market

Versa-Flame

*Combination On Demand
DHW/Space Heat*

- 3 Models ranging from 130,000 to 199,000 btu
- Ideal for cast iron boiler retrofits
- High mass characteristics - no primary secondary required - micro zones not a problem!
- First Hour Rating up to 288 GPH

Indirect Solar Storage Tanks

*Hot Water Storage with
Internal Coil(s)*

- 20 to 119 gallon models
- 316L stainless steel or glass-lined
- Single, dual, and double wall internal coil(s) available
- Low standby losses – the tank loses only 1/2°F per hour, thanks to 2" of environmentally safe foam insulation

"This is where we bring true value to the industry. The entire world is moving toward energy-saving, ultra high efficient products, and we're already there." - Howard Endres, President

Boiler Buddy

Buffer Tank

- 30, 50, 80, and 119 gallon tanks
- BB-80-C tank includes internal heat exchanger coil
- BB-50-G includes three aquastat wells
- With aquastat control well & air eliminator
- Made in the USA

Zilmet

Expansion Tanks

- Complete line of hydronic potable water expansion tanks.
- 5-year limited warranty

Bradford White

Commercial and Residential Water Heaters

- We are a full line Bradford White wholesaler stocking all residential and commercial models
- We offer boiler room delivery
- UL Bench on site to rewire commercial electric units

Badgerland Tanks

Large Capacity Water Storage Tanks - ASME

- Offering mixing tanks to high-pressure vessels--from 80 to 6,000 gallons and everything in between
- Custom tanks available and hot water generators of all sizes
- Designed for storage of potable water up to 180 degrees

Bock

EZFIT Commercial Atmospheric Gas Water Heaters

- 75, 80, 90 & 100 gallon storage
- 76,000 to 199,000 BtuH
- Drop-in ease & efficient Turboflue technology
- 5-year warranty

PVI

Boilers and Water Heaters

- Large commercial ASME water heaters
- Condensing and non-condensing

Eternal Hybrid

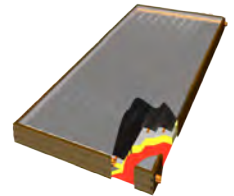

On Demand Boilers and Water Heaters

- 2 Models available 145,000 or 199,000 btu
- 98%+ Efficiency saves cost, exceeds Energy Star standards, and qualifies for Tax and LEED credits
- 316L Stainless Steel internal piping connections

Solar Thermal

Solar Hot Water & Heating Systems

- One stop shop for all solar thermal water heating products
- Large inventory of solar thermal products
- Factory and in-house design assistance
- Training

Hot Water Products, Inc.

is a manufacturer's representative and wholesale distributor for Heat Transfer Products, Inc. and a wholesale distributor for the Bradford White line of commercial and residential water heaters.

We are one of the largest solar thermal distributors in the Midwest.
